

Stop watching dashboards. Work with a coworker that fixes them.

It reads your telemetry, tickets, Slack and email, works the incident end to end, and hands you the fix — or applies it itself. Your engineers get 4× more done.

— MEET THE CREW — FOUR SPECIALISTS, ALWAYS ON

Compute Coworker

Servers, containers and Kubernetes running hot — right-sizes and scales on its own.

Autonomous

Storage Coworker

Human-in-the-loop

Database Coworker

Slow queries and locks — tunes indexes, or files a root-caused ticket.

Auto-fix + ticket

Network Coworker

Packet loss and config drift — rolls back bad changes, or holds for approval.
