

— FROM OBJECTIVE TO STANDING AGENT

One flow, four checkpoints, nothing runs unwatched.

01 Describe

Tell it the objective

02 Compose

Wire the operational logic

03 Govern

Fix the limits, in advance

04 Promote

Make it a standing agent

— THE BUILDING BLOCKS OF COMPOSE

Triggers

A schedule, a webhook, an ITSM ticket, or someone just asking.

Skills

The reusable moves an agent already knows how to make.

AI reasoning

Judgement calls grounded in the runbooks you already trust.

Flow control

Handles the branch, the retry, the case that breaks a plain script.

Human steps

A person stays in the loop exactly where judgement matters.

Actions

The actual change, executed and logged, not just suggested.

GOVERNED BY DEFAULT

- Approval gates on sensitive actions
- Scoped access, nothing wider
- Every run logged and traceable

— SPECIALIZED AGENTS TO START FROM

Network

Routing, latency, connectivity

Compute

Right-sizing, container risk

Storage

Disk health, cleanup targets

Database

Capacity, error patterns

FinOps

Spend anomalies, idle waste

ITSM

Triage, enrichment, routing

— WHAT EVERY RUN HAS TO CLEAR

60%

LESS MANUAL TRIAGE

45%

FASTER TO FIRST RUN

3×

MORE AGENTS PROMOTED

\$18

PER AUTOMATED RUN

Put Agent Builder to work.

Describe an objective, watch it draft the workflow, and promote what works into a standing agent.
